Rome, Octob. 17. N.S.

THE *Venetian* Ambassador had a Private Audience of the Pope this week, and intends to make his Publick Entry in few days. A *Franciscan* Frier is lately arrived here from *Vienna*, who after having had several Conferences with the Pope's Ministers, was yesterday a long time in private with the Pope himself; and it's said, he has Orders from the Emperor to Negociate an Accommodation of the Differences between him and this Court. The Great Duke of *Tuscany* is shortly expected here to be present at the Jubilee, and a Palace in this City is preparing for him.

Venice, Octob. 23. The Senate are employed in making several Regulations in reference to their Forces, and have sent Orders to General *Mocenigo*, who Commands the *Venetian* Troops in the *Morea*, to review them, and to send hither an exact Account of the Condition they are in. The Duke of *Mantua* is gone from hence to *Rovigo*, but will return in few days to his Palace in this City. We have received Letters from *Spalato* in *Dalmatia* of the 17th Instant, which give an Account, that the *Venetian* and *Turkish* Commissioners appointed to settle the Limits between the Territories of this Republick and the Grand Signior, have agreed on the several Boundaries from *Monte Grosso* as far as *Naventa*, and have ordered a Line to be drawn for this purpose, and they hope to have quite finished their Commission before Winter.

Warsaw, Octob. 23. The Baron of *Overbeck* arrived here some days ago from *Berlin*, being joined in Commission with Baron *Werner*, Resident from the Elector of *Brandenburgh*, to finish the Treaty for accommodating the Business of *Elbing*; It's said, they have Orders from the Elector their Master to propose, That if the Republick will yield to him the City of *Elbing*, his Electoral Highness will not only release the Debt due to him by this Crown, but will likewise give the two Bailywicks which he now possesses in *Lithuania*. The Sieur *Lezinsky*, Ambassador Extraordinary from this Republick to the Grand Signior, will begin his Journey to *Turkey* in few days; He has Instructions to give all the Assistance he can to the Ambassador the Czar of *Muscovy* is sending to the Port, in concluding a Peace, or prolonging the Truce between the *Turks* and the *Muscovites*, to which the Czar shews at present a great Disposition. Our Letters from *Caminiec* of the 27th Instant give an Account, that the *Turks* having surrendred that Place to the *Polanders* on the 22d, the Suffragan Bishop of *Chelm* came the next day and took possession of the Churches, but would not suffer the *Greeks* to use any Publick Exercise of their Religion, as was allowed them by the *Turks*. The *Greeks* have writ to the Czar of *Muscovy*, and to the Hospodar of *Moldavia*, as being of the same Church, to complain of this Proceeding, and to desire they will intercede with the Republick of *Poland*, that they may enjoy the same Liberty of Religion and Immunities as formerly. The Commissioners of *Poland* who took Possession of *Caminiec*, continue in that City, expecting the arrival of the Commissioners whom the Grand Signior has appointed to treat with them about settling the Limits between the Dominions of *Poland* and the *Ottoman* Empire.

Copenhagen, Octob. 31. The Body of the late King of *Denmark* was removed on the 26th Instant from the Room in the Palace where it lay in State, to the King's Chapel, which was done in the following manner; The King's Pages and other Servants having each a Wax-Torch in his Hand, and behind them a Row of the Guards, were placed on each side of the Long-Gallery between the said Room and the Chapel, through which marched first the Knights of the Order of *Dannebrug*, next the Royal Corps was borne by eight Colonels of Horse, a black Velvet Canopy with Silver Fringe being carried over it by six Lords of the Bedchamber; Then followed the Prince of *Hesse*, and the Knights of the Order of the *Elephant* that are in Town, the Chief Ministers, and other Persons of Quality. The Body being brought into the Chapel, was deposited in a stately *Mausoleum*, from whence 'tis to be carried on Monday sevenight to *Rotschild* to be there interred. The King has not yet fixed the time of his departure for *Holstein*, but it's thought he may be going thither about 10 or 12 days hence. The Duke of *Wirtemberg* will leave this place in a day or two, in order to Command the *Danish* Forces in *Holstein*, which are to be joined by the Troops from *Funen* and *Jutland*. The Squadron of *Danish* Men of War under the Command of Admiral *Stocken*, which sailed from hence on the 24th Instant, was driven back the same day by contrary Winds, and continued at Anchor before this Place till the 29th, when the Wind changing, they put to Sea again, and we have since received no Advice concerning them.

Vienna, Octob. 24. The Count of *Ravenstau*, Envoy Extraordinary from the King of *Denmark*, continues to confer frequently with the Emperor's Ministers touching the Affairs of *Holstein*. Count *Lamberg*, whom the Emperor has appointed to be his Ambassador to the Pope, has received his Credentials and Instructions, and intends in a day or two to begin his Journey to *Rome*. Count *Denhoff*, Envoy Extraordinary from the Elector of *Brandenburgh*, has left this Place on his return home. Our Letters from *Peter-Waradin* say, the Imperial Troops employed in building the new Fortifications near *Arat*, continued that Work with great diligence, and that the *Turks* on their side are building a new Fortress in a small Island in the *Danube* near *Belgrade*. We have Letters from *Novi* of the 11th Instant, which say, the Imperial and *Turkish* Commissioners and the Bassa of *Bosnia* have had several Conferences there, in order to adjust the Differences concerning the Possession of that Town, and some other small Places on the
